

Candidate inventory: 15 papers / 39 claims / 36 genes
202 candidate paper-gene-cohort tests

Confirmed source reuse
17 tests excluded
5 claims have <3 cohorts

Additional supplement audit
INSIG1 supplementary accessions
1 claim held pending

Source-adjudicated subset: 13 papers / 33 claims / 32 genes
176 cohort contributions; overlap removal applied within each synthesis
Separate RNA-seq holdout: 7 psoriasis / 6 healthy

Cohort eligibility follows source use; original score orientations are preserved.
